JUNIOR PRO

HEAT PRESS

WWW.STSINKS.COM

JUNIOR PRO HEAT PRESS

The Junior Pro Heat Press utilizes advanced air-powered technology to deliver consistent, high-volume transfers in a heat-free, safe workplace. It comes equipped with a touchscreen interface, programmable settings, and self-diagnostic features. This semi-automatic press minimizes operator fatigue - making it ideal for high-volume custom apparel production.

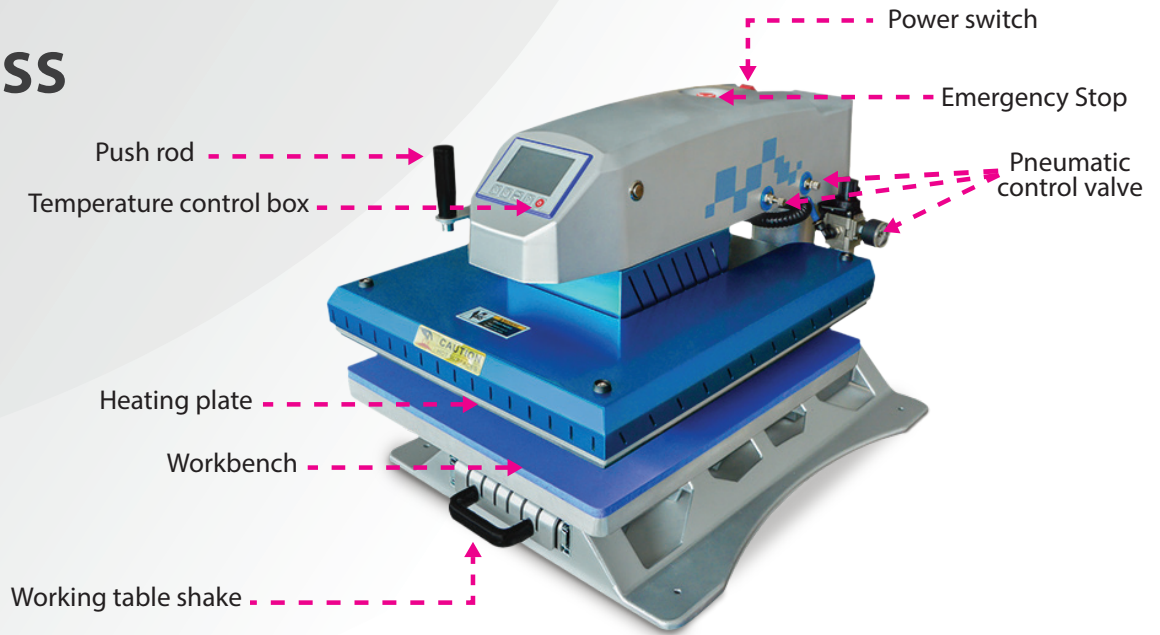

ADDITIONAL FEATURES

- Program and store frequently used applications.
- 120 PSI for heavy pressure application.
- Touch Screen Controller with new Multi-swipe gestures.
- Live digital time, temperature, and pressure readout.
- Production cycle counter.
- User-safe two-hand operation.
- Interchangeable platens.

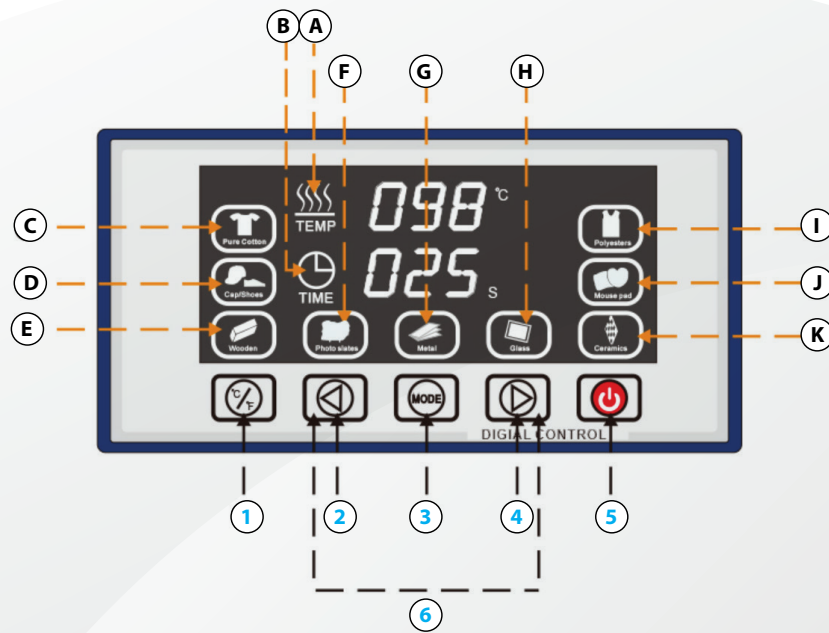

SPECIFICATIONS

ABOUT US

Founded in 1999, STS has established its reputation as a leader in digital printing inks manufacturing and technology. In 2005, the company took its first steps into the U.S. market with a manufacturing facility in New York. By 2009, STS had relocated and expanded its operations to Boca Raton, Florida showcasing its commitment to growth and innovation on a global scale.

As a world leader in wide format, industrial, promotional, textile, and apparel digital ink markets, STS is renowned for its application of cost-effective and cutting-edge technologies. Our commitment to innovation extends to streamlining processes and procedures, transforming ideas into reality.

STS products are distributed in over 160 countries across North America, Europe, South America, the Middle East, Africa, Asia, and Oceania. Our manufacturing principles are rooted in continuous improvement and efficiency.

We prioritize maintaining strong relationships with our OEM customers, ensuring a deep understanding of their requirements and providing comprehensive customer support from concept through the product lifecycle.

Our manufacturing assets, including three fully equipped labs and a 50,000 sq. ft production facility in Boca Raton, Florida, enable us to support processes ranging from simple to highly complex. Additionally, our presence extends globally with offices and warehouses in Bulgaria and Colombia, facilitating fast and easy distribution to our customers.
